

# DOLORCLAST® RADIAL

→ HIGH ENERGY PRESSURE WAVE THERAPY  
FROM THE INVENTORS OF SWISS RADIAL SHOCK WAVE

YOUR HOLISTIC SOLUTION FOR  
MUSCULOSKELETAL PAIN THERAPY

**EMS**+

# DOLORCLAST® RADIAL

► High energy radial pressure waves to relieve musculoskeletal pain quickly.

## CLINICALLY PROVEN HIGH ENERGY OUTPUT

- DolorClast® Blue handpiece delivers constant high energy density and output pressure at all frequencies
- Up to 25 hertz frequency enabling 1500 high energy pulses per minute for fast treatments
- Special treatment modes to achieve best possible patient comfort
- 7 applicators with fast twist release for quick applicator changing
- Fast return on investment for your practice

|                               |  |
|-------------------------------|--|
| PRODUCT REFERENCE             | FT-250   |
| TECHNOLOGY                    | Pneumatic radial pressure waves. 2 internal compressors                          |
| POSITIVE ENERGY DENSITY (ED+) | Dolorclast Blue® handpiece: Up to = 0,29mJ/mm2                                   |
| FREQUENCY                     | From 1 to 25Hz   |
| CLINICAL STUDIES              | 34 Randomized Controlled Trials  |
| STANDARD CONFIGURATION        | DolorClast® Radial console, Blue® handpiece, applicator kit, cart & contact gel. |
